U.S. Patent and Trademark Office PTOL-303 (Rev. 08-06)

Continuation of 11, does NOT place the application in condition for allowance because: In response to Applicants argument that Japanese reference J59-16720 does not disclose decoupling the assembly from handling forces that act on the saw blade; and the US 4,205,572 (to Werner) does not disclose a circular power saw in which the handle is rigidly connected to a swivel arm pivotably supporting a saw assembly which is pivotable relative to the footplate and is adjustable relative to the footplate and relative to the handle remaining in a stationary position, Applicant is addressing each references separately. The combination of the references teaches the claimed invention. The Final Felection of 10/27/10 has been deemed to be correct and the rejection is being half.
